Subject: HB 5344 - Desmond's Law

I fully support HB 5344 Desmond's Law. When you think of the horrific acts that humans do to animals, you realize that these things keep happening because there are no consequences for the people who are committing them. A fine and a slap on the wrist will not cut it. Desmond's Law would be a huge step in finally making people know that this will not be tolerated.

Please pass this law into effect. The innocent animals are counting on it. Desmond and all of the many innocent victims deserve protection. If the consequences were severe, there would be less of this happening.

Please pass this law.
